

Sandra Céspedes received a Ph.D. degree in Electrical and Computer Engineering from the University of Waterloo, Canada in 2012, a Specialization degree in Management of Information Systems and a B.Eng. in Telematics Engineering, both from Icesi University, Colombia, in 2007 and 2003, respectively. She joined the Department of Electrical Engineering at the University of Chile as an Assistant Professor in 2014, and was previously an instructor and faculty member with the Department of Information and Communications Technologies, Icesi University, Colombia, from 2005 to 2014. She is currently a Researcher with the NIC Chile Research Labs, and the Chilean Section Coordinator of the IEEE Women in Engineering affinity group. Dr. Céspedes serves as an Associate Editor for IET Communications, and is a reviewer for multiples journals and conferences such as IEEE Transactions in Vehicular Technology, IEEE Transactions on Intelligent Transportation Systems, IEEE Transactions in Mobile Computing, IEEE GLOBECOM, IEEE ICC, among others. Dr. Céspedes is an ISOC Returning Fellow to participate in the standardization activities of the IETF. Her research focuses on the topics of vehicular networking, intelligent transportation systems, mobility management, smart grid communications, IPv6 integration and routing in the Internet of Things.
